

W-TX-MINI

MINI WIRELESS WICKET DOOR SWITCH

OFFER BY SYSTEM

UNIVERSAL RECEIVER

W-TX-MINI

Channel	Single channel	Radio technology	Trio-Frequency technology
Power supply	AC/DC 12-24V	Frequency	Multi from 409.025 MHz – 458.4 MHz
Frequency	Multi from 409.025 MHz – 458.4 MHz	Signal modulation	FSK
		Signal range	20 meters
		Power supply	3.6V DC (3.6V lithium battery)
		Support ports	3 port modes
		Battery capacity	2600mAh
		Operating consumption	75 ua
		Standby	18 ua
		IP grade	IP 65
		Operating temperature	-20°C - + 60°C

ADVANTAGES

Advanced Wireless Technology

Adopting efficient wireless communication technology, no wiring required, easier installation.

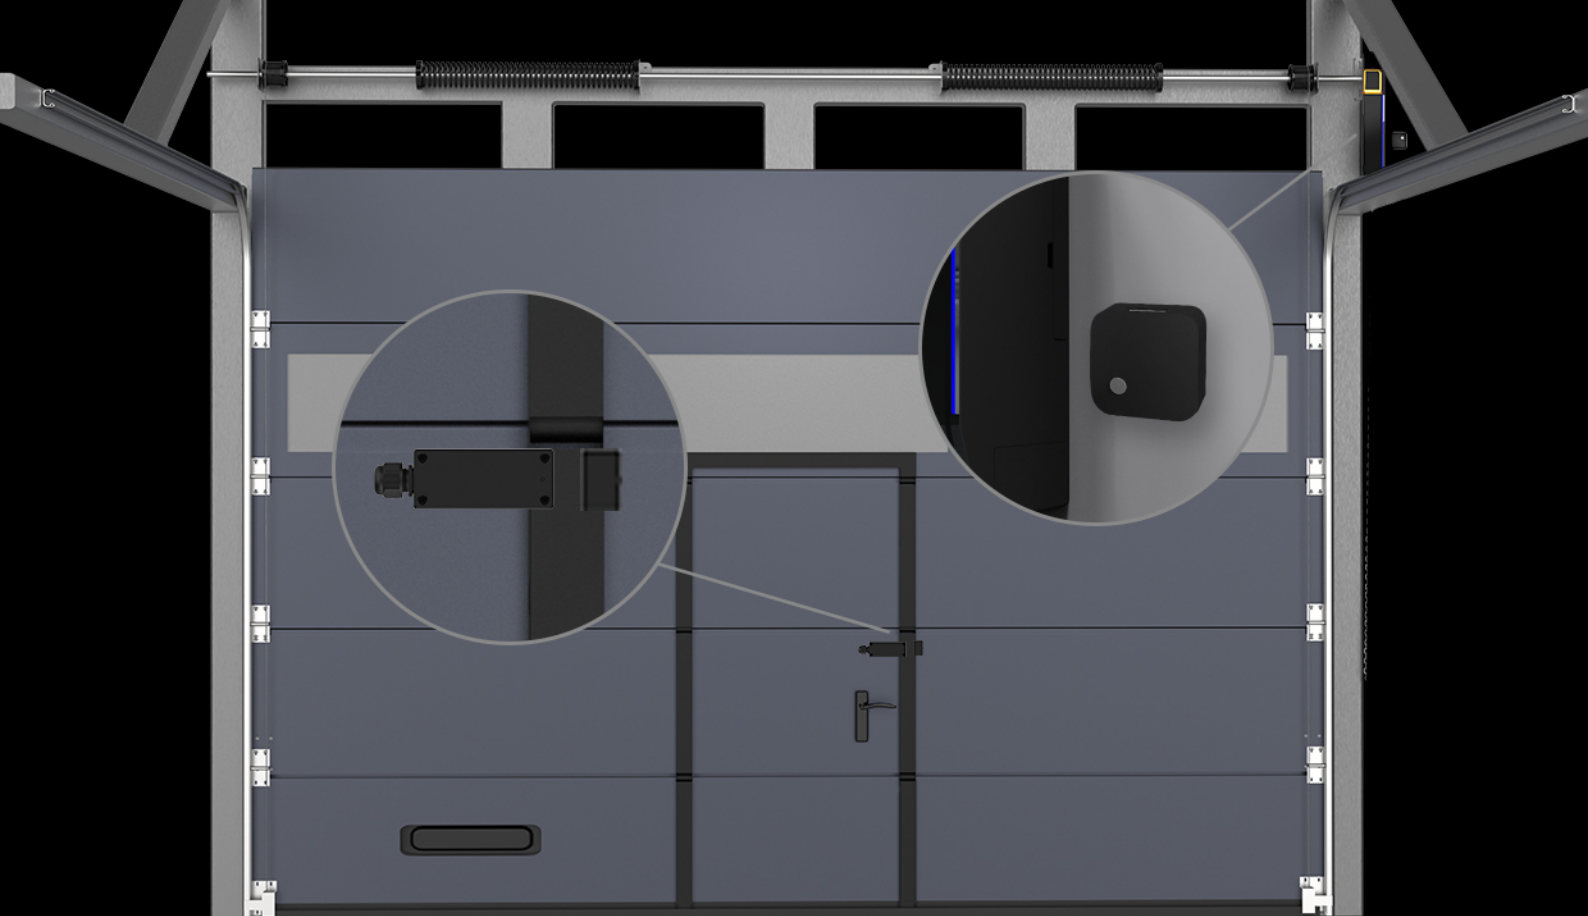

Trio-Frequency Technology

Anti-interference design, ensure stable and reliable signal transmission.

Long Battery Life

Approximate battery life of 2 years under a normal home garage door.

- Magnetic sensor
- Contact-free magnetic detector
- Trio-Frequency technology for anti-interference
- Range between transmitter and sensor: 25mm
- Height adjustable mounting base for the various wicket doors frame
- Approximate battery life of 2 years under a normal home garage door

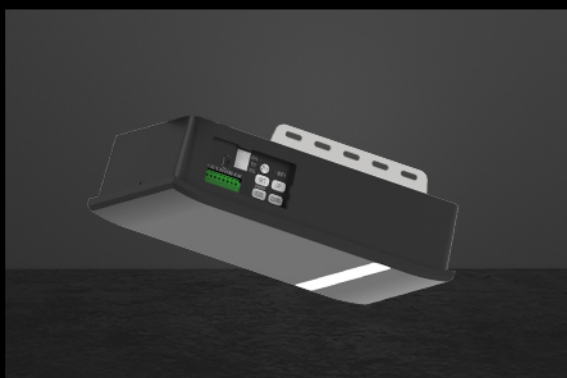

OFFER BY STAND-ALONE KIT (OPTIONAL)
